Experience

Rolustech

Lahore - Pakistan

2022 - Present

I am a full stack developer at Rolustech, specializing in UI design, JavaScript, and backend technologies like WordPress and PHP. I excel in building e-commerce frontends using Angular and headless WordPress, and have experience with CRM UI and integrating WordPress forms. By collaborating directly with clients, I deliver customized solutions that meet their precise requirements.

Prima Systems

Lahore - Pakistan

2019 - 2022

At Prima Systems, I independently collaborated with clients, building projects from scratch and handling both UI and backend tasks. I created custom APIs integrated with Google Maps and other platforms, primarily working with JavaScript, PHP, and developed projects on the WordPress CMS.

Base29

Lahore - Pakistan

2017 - 2019

I started my journey as a web developer intern at this company, where I developed my skills in WordPress and PHP development. Throughout my time here, I've contributed to various projects.
